

Complete the GPR Survey!

Individuals receiving treatment for an opioid or stimulant use through Pennsylvania's State Opioid Response (SOR) grant are required to participate in a series of surveys to help us learn more about what treatments are most helpful. *Your feedback and participation are valuable and greatly appreciated!*

We will be contacting you soon!

We will be reaching out to you again in about 5 months to complete another survey. Keep in mind, the interview:

- Can be completed entirely over the phone:
- Take 25-35 minutes
- Be scheduled around your availability
- Consist of the exact same questions you completed during the intake survey

For participating in the interviews, we will send you a \$30 electronic gift card within a two-week time period after you complete the 6-month follow up interview as a thank you for giving us your time.

Questions? Call 215-444-2700
